“ENERGY CONSERVATION”

Objectives:

The objective of the physics poster-making competition on National Energy Conservation Day is to raise awareness about energy conservation, encourage creativity and artistic expression, promote understanding of physics concepts, and foster collaboration and teamwork.

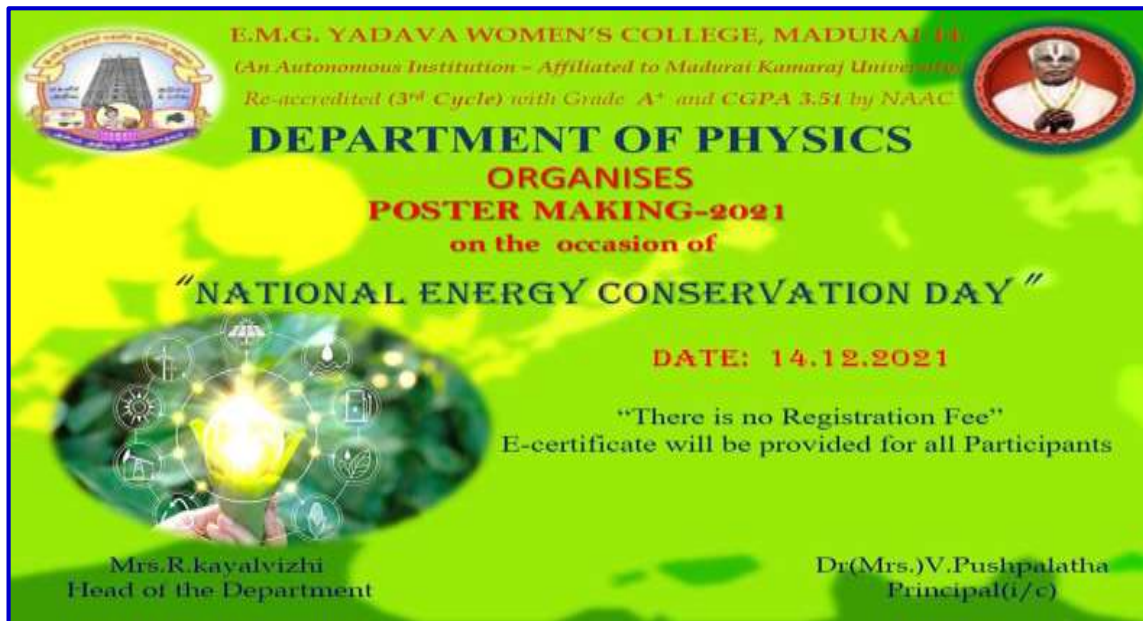

Programme Outcome:

The program outcomes include increased awareness about energy conservation, enhanced artistic and creative skills, improved understanding of physics principles, and strengthened bonds among participants. This competition serves as a platform to engage students in the importance of energy conservation while nurturing their artistic and scientific abilities. It contributes to creating a sustainable future and fostering a sense of community among participants.
