Beneficiaries	Government Middle School, & Villagers of Karuvanur		
Our College		Other Participants	
Faculty	Students		
2	15		

CONSULTANCY ACTIVITY PHENOIL AND DHUNA PREPARATION

Objectives:

To impart knowledge about the preparation and types of floor-cleaning phenyl and aromatic Dhuna dhoop, which are widely used for household cleaning and spiritual purposes.

E.M.GOPALAKRISHNA KONE YADAVA WOMEN'S COLLEGE

Programme Outcome:

Upon successful completion of this program, participants gained practical skills and in-depth knowledge about the preparation processes of phenyl and Dhuna dhoop. They learned about the different ingredients, their proportions, and the techniques required to produce high-quality cleaning agents and aromatic dhoop. The program emphasized both cost-effectiveness and safety measures, allowing participants to create these products efficiently. This experience also opened avenues for small-scale business opportunities, enabling participants to utilize their newly acquired skills to generate additional income. By understanding the essential steps in the production process, they can now confidently prepare these products for personal use or commercial sale, contributing to both hygiene and well-being in their communities.
