**STUDENT SEMINAR ON "IMPORTANCE OF MEDICINAL PLANTS"**

On 09.09.2022, for the III Zoology students a seminar was organized focusing on "Importance of Medicinal Plants" for Botany. The seminar aimed to enhance awareness and understanding of the significance of medicinal plants in various fields, particularly their applications in traditional and modern medicine.

**Objectives**

- To explore the medicinal properties of various plants.
- To discuss the role of medicinal plants in healthcare and their contributions to allied fields.
- To encourage student participation and research in the area of botany and herbal medicine.

**Seminar Highlights**

Students presented on various importance of medicinal plants, including:

- The importance of medicinal plants in traditional medicine.
- Case studies on specific plants and their therapeutic properties.
- Sustainable practices in the cultivation and conservation of medicinal plants.

**Programme Outcomes:**

The seminar was successful in achieving its objectives, as evidenced by:

- Increased awareness among participants about the significance of medicinal plants in both historical and contemporary contexts.
- Enhanced research interest in the field of botany, particularly in medicinal plant studies.
- Development of skills in presentation and public speaking among participating students.

The seminar on medicinal plants not only enriched the participants' knowledge but also inspired a deeper appreciation for the role of plants in healthcare. The students demonstrated commendable organization and enthusiasm, paving the way for future seminars and research initiatives in this vital area of study.
