### **MEDICAL CAMP**

#### **Report:**

The EMGYWC Women's Cell organized a medical camp in association with Preethi Hospital in Madurai. The event aimed to provide healthcare services to students, faculty, and non-teaching staff of the institution.

#### **Activities:**

A team of healthcare professionals from Preethi Hospital conducted free health check-ups for all attendees. This included basic medical examinations such as blood pressure, blood sugar, and BMI measurements. Participants had the opportunity to consult with doctors and specialists on various health concerns and receive personalized advice. Informative sessions were conducted on topics such as preventive healthcare, healthy lifestyle practices, and importance of regular medical check-ups. Brochures and flyers on various health-related topics were distributed to participants for further reference. Participants requiring further medical attention were referred to Preethi Hospital or other healthcare facilities for appropriate treatment.

#### **Outcome:**

The medical camp witnessed a significant turnout of students, faculty, and non-teaching staff who availed the healthcare services offered. Many attendees expressed appreciation for the initiative taken by EMGYWC and Preethi Hospital in organizing the camp. The event not only provided important health screenings but also raised awareness about the importance of health maintenance and regular check-ups. The initiative plays a crucial role in ensuring the well-being of the community and promotion a culture of health consciousness among individuals.

We extend our gratitude to Preethi Hospital for their valuable partnership and support in making this event a success.
