

**DEPARTMENT: ZOOLOGY-BOTANY** 

**ACTIVITY**: FIELD VISIT

**YEAR** : 2022-2023

### **DEPARTMENT OF ZOOLOGY - BOTANY**

DATE	TIME	Venue	MODE
20.07.2022	10:00 a.m. to 01:00 p.m.	EMGYWC, Premises	Offline
Theme		Study on Plant Diversity	
Nature of the Activity		Field Visit	
Title		Identification of Campus Plant Species	
Resource Person		<b>Dr.V.Vijaya</b> Assistant Professor of Botany EMGYWC	
No. of Beneficiaries		Students - 40	

#### FIELD VISIT "IDENTIFICATION OF CAMPUS PLANT SPECIES"

# **Objectives:**

The objective of the field visit on the identification of plant species is to provide students with practical experience in recognizing and categorizing plants within the college premises.

# **Field Activities:**

The field visit commenced with an overview of basic plant morphology and taxonomy concepts. The college premises, including gardens, green spaces, and botanical areas, were explored.

# Plant Identification, Documentation and Recording:

Students actively engaged in the identification of plant species and documented their findings, based on leaf characteristics, flower morphology, and overall growth patterns. Emphasis was placed on using dichotomous keys and observing key features to distinguish between different plant families and genera.

### **Educational Value:**

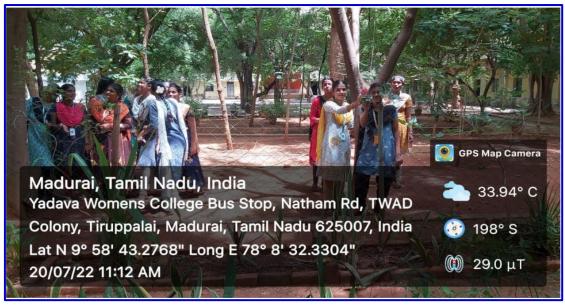

The field visit enriched students' understanding of theoretical concepts learned in the classroom, providing a practical context for taxonomy and plant identification. The hands-on experience enhanced their observational and analytical skills, fostering a holistic approach to studying plant diversity.

#### Outcome:

The identification of plant species and taxonomy field visit within the college premises proved to be an invaluable educational experience. It not only deepened students' understanding of plant biology but also instilled a sense of curiosity and appreciation for the diverse flora existing within their academic environment. This hands-on learning approach provides students keen interest in plant sciences. The field visit served as a bridge between theory and practice, contributing to a more comprehensive and applied understanding of plant species and taxonomy.
