FACULTY EXCHANGE PROGRAMME ON "NETWORK SECURITY"

Report:

The Faculty Exchange Programme on "Network Security" was designed with the objective of enhancing participants' understanding of strategies to safeguard networks. The program focused on preventing unauthorized access, detecting and stopping cyber-attacks, and ensuring secure access for authorized users.

During the programme, students of Computer Science, EMGYWC were introduced to various network security concepts, including the identification and mitigation of potential threats and vulnerabilities. Participants engaged in practical sessions to apply

these concepts, learning how to implement effective countermeasures against security breaches.

Consequently, students gained a comprehensive understanding of the different types of network threats and vulnerabilities. They were equipped with knowledge on how to apply appropriate security measures to protect network infrastructures. The programme achieved its goal of enhancing network security expertise, empowering students and faculty to contribute to more secure and resilient network environments.
