VISIT TO BOOK EXHIBITION

Objectives:

The visit to the book exhibition aimed to promote reading habits among students, instill a sense of public decorum in public places, and enhance their knowledge through engagement with diverse literary works. By exposing students to various genres and authors, the event sought to inspire a lifelong love for reading.

Programme Outcome:

The students actively participated in the exhibition, exploring numerous books and interacting with authors and publishers. As a result, they not only developed their reading habits but also expanded their knowledge across different subjects. The experience fostered a deeper appreciation for literature and encouraged discussions about the importance of reading in personal and academic growth.
