FACULTY EXCHANGE PROGRAM ON "FOOD COST CONTROL"

Objectives:

- To educate students about the crucial role of food cost control in the procurement of materials within food service establishments.
- To provide students with a comprehensive understanding of how effective food cost management can significantly impact the overall profitability and efficiency of food service operations.
- To instill in students the importance of food cost control, emphasizing the critical aspects of purchasing and managing costs within a food service unit. The curriculum covered various strategies and techniques for controlling food costs, including budgeting, cost analysis, inventory management, and supplier negotiations.

Programme Outcome:

Students gained valuable insights into the processes involved in fixing and controlling food costs. They learned how to implement cost-saving measures without compromising the quality of the food and service provided. Practical examples and case studies were used to illustrate real-world applications of food cost control principles, making the learning experience engaging and relevant.

Feedback: The feedback from students was overwhelmingly positive. They appreciated the in-depth knowledge shared by the faculty and the practical approach of the program. Many students expressed that the program had significantly enhanced their understanding of food cost control and its importance in the food service industry.

The Faculty Exchange Program on "Food Cost Control" was a resounding attainment, equipping students with essential skills and knowledge to excel in their future careers.
