ENTRY LEVEL TEST - "KNOWLEDGE IN CHEMISTRY"

Objective:

1. To assess the foundational chemistry knowledge of first-year B.Sc. Chemistry students.
2. To identify students' strengths and areas for improvement, ensuring that they are adequately prepared for the rigorous academic curriculum ahead.

Report:

The Entry Level Test titled "Knowledge in Chemistry" was meticulously designed to cover essential topics in chemistry, including general chemistry principles, basic organic and inorganic chemistry, and fundamental concepts in physical chemistry. Students were given 90 minutes to complete the test, which comprised multiple-choice questions.

Programme Outcome:

The results provided valuable insights into the students' understanding and preparedness, highlighting both strengths and areas needing further attention. Based on the performance analysis, the department plans to organize additional tutorial sessions and remedial classes to address any knowledge gaps. This proactive approach will help students build a solid foundation in chemistry, enabling them to excel in their academic pursuits. The test also provided a sense of preparedness and motivation among the students, setting a positive tone for the academic year.
