MATHEMATICAL EXHIBITION

Objectives:

The exhibition aimed to showcase the seamless integration of art and science through origami, fostering curiosity and understanding of mathematical principles, engineering applications, and creative problem-solving within paper folding.

Report:

The Mathematical Exhibition was a resounding success, meeting its objectives of showcasing the seamless integration of art and science through the fascinating world of origami. The exhibition promoted curiosity and a deeper understanding of mathematical principles, engineering applications, and creative problem-solving techniques inherent in the art of paper folding.

E.M.GOPALAKRISHNA KONE YADAVA WOMEN'S COLLEGE

Attendees were captivated by the intricate designs and the mathematical concepts behind them, gaining insights into how origami techniques are applied in various scientific fields. Workshops and demonstrations illustrated the practical applications of folding in engineering, such as in space structures and medical devices.

The event successfully ignited lasting enthusiasm for the integration of art and science, highlighting the beauty and utility of mathematical concepts through a creative lens. The exhibition not only educated but also inspired all who attended, leaving a profound appreciation for the art of origami and its scientific significance.

Programme Outcome:

The exhibition successfully facilitated understanding of the mathematical concepts behind origami, demonstrated the application of folding techniques in various scientific fields, and instilled lasting enthusiasm for integrating art and science in the minds of all attendees.
