**MoU ACTIVITY - FACULTY EXCHANGE PROGRAMME**

**Introduction**

The Faculty Exchange Programme on "Exchange of Subject Knowledge" was conducted under the memorandum of understanding (MoU) between EMGYWC and Yadava College. The program aimed to facilitate the exchange of expertise in various subjects. It provided a platform for faculty members from various academic institutions to share their knowledge, and experiences, and cultivate a diverse academic and professional environment.

**Objectives**

1. Facilitate the exchange of knowledge among expert staff from different academic Institutions.
2. Provide a varied academic and professional ambience for faculty members.

**Programme Activities**

The Faculty Exchange Programme included a series of interactive sessions, workshops, and discussions focused on each subject area. Highlights of the programme activities include:

**Applied Embryology:** Lectures on assisted reproductive technologies, including in vitro fertilization (IVF) and the ethical considerations surrounding embryo manipulation.

**Plant Tissue Culture:** Demonstrate tissue culture techniques for plant propagation and genetic modification.

**Flight Adaptation of Birds:** Bird behaviour and morphology, discussions on avian flight adaptations, and lectures on ornithology.

**Programme Outcome:**

Upon successful completion of the programme, the following outcomes were observed:

1. **Student Exposure to Diverse Faculty:** Students had the opportunity to interact with and learn from a diverse range of faculty members. This exposure enabled them to observe various teaching and learning styles, enriching their educational experience.
2. **Professional Development for Teachers:** Faculty members were able to enhance their professional development by experiencing different teaching environments and approaches. The exchange stimulated their creativity and innovation in teaching methodologies.
3. **Institutional Collaboration and Benefits:** The participating institutions strengthened their bond through collaboration under the MoU. The exchange programme not only facilitated knowledge sharing but also opened avenues for future collaborations and joint initiatives.
