BIODIVERSITY CAMP VISIT TO "BIODIVERSITY HERITAGE SITE AT ARITTAPATTI"

Objectives:

To promote awareness and understanding of biodiversity.

Program Highlights:

Bird Watching: Students observed numerous local and migratory bird species, learning to identify them by sight and sound.

Flora Exploration: The camp included guided walks through the region's diverse plant life, highlighting the unique vegetation that supports the local ecosystem.

Fauna Study: Participants encountered and studied various native animals, gaining insight into their habits and habitats.

Conservation Education: Workshops and discussions emphasised the importance of biodiversity and humans' role in preserving it.

Impact:

Field visits at Arittapatti provide students with valuable knowledge and experience, encouraging them to pursue careers in environmental science and conservation. The camp not only enhances their understanding of biodiversity but also instils a sense of responsibility towards protecting our natural heritage.

Program Outcome:

Students gained first-hand experience with various local and migratory bird species, their vocalizations, and the native flora and fauna of Arittapatti in Madurai, Tamil Nadu. This immersive experience fostered a deeper appreciation of nature, inspiring students to consider future roles as environmental stewards and advocates for conservation.
