CONSULTANCY SERVICE ON "DEMONSTRATION OF COMPUTER HARDWARE"

Objectives:

To educate students from non-major departments on the identification and functions of various hardware ports and components of the motherboard. The main objective was to ensure that students could confidently name and understand the roles of critical computer hardware components.

Programme Outcome:

The session successfully achieved its goals, providing students with essential knowledge of computer hardware. Through practical demonstrations, students were able to identify and understand the hardware components of a computer, including the processor, memory, disk drives, and the main board. The session also detailed the specific functions of hardware ports and the various parts of the motherboard. By the
