college's history, mission, values, and academic programs, to instill pride and a sense of belonging among the new students.

Following that the range of academic resources available to students, including libraries, laboratories, and academic support services were thought to ensure the resources available to aid their academic success. Also faculty members specializing in career counselling, skills required for different career paths, internship opportunities, and strategies for professional development were oriented to encourage engagement and address individual concerns.

The orientation concluded with a guided tour of the campus, led by senior students who provided new students with a practical understanding of the campus layout and facilities available for their academic and personal use.

The enthusiastic feedback from participants highlighted the programme's success in creating a supportive and inclusive learning community.

### **Programme Outcomes:**

1. New students gained a thorough understanding of the college's history, values, facilities, and academic programs.
2. Participants became aware of the various academic resources and support services available on campus.
3. Students received insights into potential career paths available to Chemistry graduates.
4. The programme equipped students with the knowledge and strategies needed about their academic and professional paths in Chemistry.
5. The orientation provided a sense of community among new students and support within the academic environment.
