FIELD TRIP TO "VERMICOMPOSTING AND SERICULTURE FARM VISIT"

Objectives

- Gain practical knowledge and understanding of vermicomposting and sericulture farming practices.
- Explore the entrepreneurial opportunities inherent in sustainable agricultural ventures.

Visit Overview:

The field trip commenced with a visit to the sericulture farm in Mullipallam, Solavandhan. Here, students were provided with a comprehensive tour of the facilities, witnessing firsthand the intricate processes involved in silk production. They learned about the lifecycle of silkworms, mulberry cultivation, silk extraction techniques, and the various stages of silk processing.

Following the sericulture farm visit, the group proceeded to the Sakthi Vermicompost farm in Sanampatti, Vadipatti. At this location, students were introduced to the principles and practices of vermicomposting. They observed the utilization of earthworms to decompose organic waste materials, producing nutrient-rich compost used for soil enrichment in agricultural settings. The field trip proved to be an enriching and insightful experience for all participants. The association extends its gratitude to the farm authorities for their hospitality and valuable insights shared during the visit.

Programme Outcome

Upon the successful completion of the field trip,

- Students were not only equipped with practical knowledge of vermicomposting and sericulture but also inspired with entrepreneurial opportunities for the future.
- The hands-on experience gained during the visit provided them with valuable insights into sustainable agricultural practices and encouraged them to explore potential ventures in this field.
