INDUSTRIAL VISIT TO CHOCOLATE FACTORY

Objectives:

1. To provide students with practical knowledge about chocolate production.
2. To expose students to the various processes involved in manufacturing different types of chocolates and to offer hands-on insights into the chocolate-making industry.

Programme Outcomes:

The visit to the chocolate factory proved to be highly informative and beneficial for the students. Key outcomes of the visit included:

1. Students observed the entire chocolate production process, from raw cocoa bean processing to the final packaging of various chocolate products. They learned about the different stages involved, including roasting, grinding, conching, and tempering.
2. The factory visit provided students with practical tips and tricks for making a variety of chocolates. They gained insights into techniques used for creating different textures and flavours, as well as the importance of quality control in chocolate production.
