ENTRY LEVEL TEST ON "BASIC TERMINOLOGY OF COMPUTERS"

Objectives:

- To test the students' understanding about the basic physical parts of the computer such as CPU, Disk Drive, Hard disk, Keyboard, Modem, Monitor, Printer etc. and about the software such RAM, ROM, Networks, Operating Systems etc.,
- To evaluate their knowledge of essential computer components and terminology to tailor subsequent instruction and support effectively.

Program Outcomes:

On Successful Completion of the Programme,

The test effectively gauged students' proficiency in basic computer terminology and concepts through an MCQ analysis of their understanding of key components such as the CPU, RAM, hard drives, and peripheral devices, as well as fundamental software concepts like operating systems and applications. The results provided valuable insights into the students' initial knowledge levels, helping to identify areas that needed further clarification and support. This assessment enabled educators to better address students' learning needs and tailor future instructional
